

Press Release

Sérboli Bureau: a new Architecture and Interior Design firm from Barcelona.

Serboli Bureau is a new Italian-trained architecture and interior design studio, based in Barcelona and operating throughout Europe, with current projects in Brussels, Milan, Sicily, Asturias and the Catalan capital itself.

The studio, founded in 2023 (formerly part of CaSA-Colombo and Serboli Architecture since 2010 - "AD100 Nacional" 2020, "AD100 Nacional 2021), creates new spaces taken from the architectural approach to the intimate scale of interior design.

Our housing, office and retail projects are born from an architectural vision of interior design that confronts space in a radical way, solving the functional needs of each environment and forging a playful dialogue between the limitations of space and its solutions.

The firm offers a tailor-made design for each client, adapting to their needs and habits, with a direct relationship between space and people. Through an expression of humanist interior design, we relate the physical agent with the human actor to create exclusive environments and new environments.

About our history:

Serboli Bureau is an Italian-trained architecture and interior design studio, based in Barcelona and with current projects in Brussels, Milan, Sicily and the Catalan capital itself.

Officially founded in 2023, the firm comes from an experience of more than 15 years in renovations and requalifications of housing, office and retail spaces. The studio includes projects throughout Europe (Spain, Italy, Belgium, Russia), with consultancy also in the United States and Mexico.

The office presents projects in specialized books from different publishers (Lannoo, Belgium / Gestalten, Germany), and international magazines such as AD (Spain, UK, China), Elle Decor (UK, Italy), House&Gardens, Living Etc, DWell, Azure, Living Corriere, among others.

It is also possible to view projects on interiors design web pages such as Dezeen, Yellowtrace, Domus.
